	Rainfall (mm)	Chances of Rainfall	Maximum Temperature (°C)	Minimum Temperature (°C)	Maximum Rel. Hum. (%)	Minimum Rel. Hum. (%)	Wind Speed (km/hr)	Dominant Wind Dorection
<b>Tehsil- Sadar(Gorakhpur) -By AWS</b>	55	80	28	25	NA	NA	NA	NA
<b>District- Gorakhpur</b>	55	80	28	24	95	90	22	ENE

**Atmosphere of tomorrow:** Partly cloudy sky with chances of Moderate to Rather Heavy rainfall all day long in an erratic way-majorly in the evening. Remember not to move outdoor for least significant work, majorly in the evening.

### Peculiar observation:

- Yesterday's (July 8, 2019) maximum & minimum temperature recorded by Climate Cell of Gorakhpur is 31°C & 27°C respectively with minimum relative humidity as 81 %. Heavy rainfall of 64.6 mm took place in Gorakhpur by yesterday. Also, the speed of wind gust observed was 19 km/h with the dominated wind direction as 'N'.
- Overall rainfall for July 9, 2019 recorded by Climate Cell till 02:00 pm is 57.4 mm
- Heavy rainfall which took place on July 8, 2019 is expected to continue in the same phase in an scattered way till third week of July, 2019.

### Precautionary measures for citizens of Gorakhpur for next 1 week:

- Lightning seeks the highest ground, so if indoor shelter is not available, crouching down in the nearest, lowest & unexposed point is a better bet majorly during cloudy & rainy hours till the storm gets completed.
- Avoid staying near water bodies & strictly avoid being inside the car/vehicle during stormy hours. Tents & pavilions found inside/near parks are not good option to stay.
- Try to stay indoors with closed windows & minimal usage of electric appliances during the rainy & stormy hours and if outdoor then choose an open ground at lower elevation-that too away from water body & tall or metallic structures.
- Stay in a safe place and away from the haggard trees or heavy & loose objects lying in an open atmosphere, beware of high wind gust that is likely to be blown in second week of July, 2019.
- Plan for the outdoor work execution when there is no or minimal presence of cloud in the sky & do take necessary things to stay safe from the stormy winds, heat waves & rainfall. Avoid moving out of the abode for least significant work at least till third week of July, 2019 & if moving, then do remember all the precautionary measures instructed above for lightning, rainfall & storm.
