<b>Tehsil- Sadar(Gorakhpur) -By AWS</b>	1	45	34	26	NA	NA	NA	NA
<b>District- Gorakhpur</b>	1	45	34	26	82	59	20	E

**Atmosphere of tomorrow:** Partly cloudy sky with sizzling sunshine in the afternoon

### **Peculiar observations of Climate Cell:**

- Yesterday's (August 24, 2019) maximum & minimum temperature recorded by Climate Cell of Gorakhpur is 32.8°C & 25.3°C respectively with the minimum relative humidity as 65 %. Maximum speed of wind gust recorded was 19.3 km/h with dominated wind direction as ENE.
- Light to moderate rainfall is likely to occur in the ending 2-3 days of August 2019.

### **Precautionary measures for citizens of Gorakhpur for next 1 week:**

- Lightning seeks the highest ground, so if indoor shelter is not available, crouching down in the nearest, lowest & unexposed point is a better bet majorly during cloudy & rainy hours till the storm gets completed.
- Tents & pavilions found inside/near parks are not good option to stay during thundershower.
- Try to stay indoors with closed windows & minimal usage of electric appliances during the rainy & stormy hours and if outdoor then choose an open ground at lower elevation-that too away from water body & tall or metallic structures.
- Stay in a safe place and away from the haggard trees or heavy & loose objects lying in an open atmosphere during thundershower.
- Plan for the outdoor work execution when there is no or minimal presence of cloud in the sky & do take necessary things to stay safe from the stormy winds, heat waves & rainfall. Avoid moving out of the abode for least significant work & if moving, then do remember all the precautionary measures as instructed above for lightning, rainfall & storm.
