<b>Tehsil- Sadar(Gorakhpur) -By AWS</b>	-	-	31	23	NA	NA	NA	NA
<b>District- Gorakhpur</b>	-	-	31	23	91	75	11	W

**Atmosphere of tomorrow:** Partly cloudy & sky with chances of sunny afternoon

### Peculiar observations of Climate Cell:

- Yesterday's (October 3, 2019) maximum & minimum temperature was 28.5°C & 22.8°C respectively. Also, the speed of maximum wind gust recorded by Climate Cell for yesterday was 14.5 km/h with the dominated wind direction as 'W'.
- Moderate to rather heavy rainfall is likely to hit Gorakhpur from of October 7, 2019 & is likely to continue till October 13, 2019.

### Precautionary measures for citizens of Gorakhpur for next 1 week:

- Lightning seeks the highest ground, so if indoor shelter is not available, crouching down in the nearest, lowest & unexposed point is a better bet majorly during cloudy & rainy hours till the storm gets completed.
- Tents & pavilions found inside/near parks are not good option to stay during thundershower.
- Try to stay indoors with closed windows & minimal usage of electric appliances during the rainy & stormy hours and if outdoor then choose an open ground at lower elevation-that too away from water body & tall or metallic structures.
- Stay in a safe place and away from the haggard trees or heavy & loose objects lying in an open atmosphere during thundershower.
- Plan for the outdoor work execution when there is no or minimal presence of cloud in the sky & do take necessary things to stay safe from the stormy winds, heat waves & rainfall. Avoid moving out of the abode for least significant work at least till the completion of second week of October, 2019 & if moving, then do remember all the precautionary measures as mentioned above.
