

PROGRESSIVE PATHANKOT

For the upliftment of society by Unique ventures and to make Best use of Information Enabled service in Various departments ,Progressive Pathankot Group was Established. The centralized objective of the Progressive Pathankot was to uplift the society by Using Various Information Technology Enabled Services so that standard of Living and service Delivery Rate can be Improved .Outcome of Weekly Meeting s And Brainstorming Section was Following Projects.

- First Outcome was **Make in Punjab** ,A service Delivery Project which was designed for the self help Group of Punjab to Showcased their Products across the Globe as there was no other Such application was designed or developed .This project won the **Skoch Award Of Merit in the Category Of IT Initiative in Smart City** ,in SKoch Summit Held At Delhi in Sept,2017.Its has ranked 7th in the list of top 50 Best Smart City Project among Country.
- Second Outcome was **Active Blood Contributors**: A Project for Social cause which has knocked up the door of the **National award in the category** of District level Initiative at PM Governance award will also be extended for State level so that other districts can reap the benefits from this project. A platform in which Database of the Blood Donor of Different Blood groups was make public so that in case of emergency ,the person who needs blood can directly contact to the donor. Any one can put demand of specific blood group of any other districts can drop over portal .This project won the **Skoch Award Of Merit in the Category Of IT Initiative in Smart City** ,in SKoch Summit Held At Delhi in Sept,2017.Its has ranked 5th in the list of top 50 Best Smart City Project among Country.
- Third Outcome Was **Farm to Home**: Farm-To-Home was developed with the purpose of reducing this distance between the farmers and the consumers. Farm to Home trim the distance between farmers and customers .i.e. seller and the buyer. **Farm to Home a web application**, is a platform for the farmer to sell & consumers to buy fresh product directly from farms without any inter mediator at best price. It is a major issue concerned with the farming community of the state as well as with the common people .Farm to Home has been greatly lauded by civilians and Offline outcome this project

“Kissan Bajar” has been extended to three time instead of Single day. This project won the **Skoch Award Of Merit in the Category Of IT Initiative in Smart City** ,in SKoch Summit Held At Delhi in Sept,2017.Its has ranked 4th in the list of top 50 Best Smart City Project among Country.

- Fourth Outcome Of Progressive Pathankot Was “**EBasta**”: E-Basta is a framework to make Punjab school Education Board books accessible in digital form as e-books to be read and used on smartphones,tablets and laptops. The main idea is to bring various students and teachers of different schools together on one platform. Besides the portal, a back-end framework to facilitate the organization and easy management of such resources has also been made, along with the web based applications that can be installed on tablets for navigating the framework. The framework, implemented as a portal, brings together two categories of stakeholders: the teachers and the student.

- Fifth Outcome Of Progressive Pathankot was “**Sewa Mein** ”: SewaMein aims to support Urban Poorby providing them one stop solution to market their products and services and also can access information and other benefits. The Sewa Mein act as a bridge between urban poor and middle and higher income groups who are accessing various services like *security, carpentry, gardening, construction, plumbing, electrical work, health care support, housekeeping* which in turn is provided by Urban Poor. This program for supporting urban poor through Sewa Mein will be rolled out in the District Pathankot of State Punjab during the 2017. Build strong grassroots level institutions for the urban poor to enable them access to gainful and sustainable employment opportunities to achieve the broader goals of poverty and vulnerability reduction. This project won the **Skoch Award Of Merit in the Category Of IT Initiative in Smart City** ,in SKoch Summit Held At Delhi in Sept,2017.Its has ranked 8th in the list of top 50 Best Smart City Project among Country.

- **Sixth Outcome of Progressive Pathankot Was Angdaan:** Each year, thousands of people die while waiting for a transplant, because no suitable donor can be found for them. The need for organ donors has never been greater. Angdaan is a web based application with objective to encourage the citizens of district pathankot to register as the organ donors and to make the organ available for a person in need to save a life. Its basically with the theme to bridging the gap and connecting the donors with hospitals as well as the person in need . Webportal was designed to have database of donors with their address and contact details.

- Municipal Cooperation ,Pathankot Installed 4 Sanitary Napkin Vending Machine at Avlon School, Saheed Makhan Singh Sen Sec School, Rama Chopra College And Arya College Pathankot, with the support of C.S.R

- Project of Door to Door Wastage Collection And segregate has been started in 11 Wards of District Pathankot which have been running successfully and most of important ,not a single person has been engaged on Salary basis for this process, waste keeper has been engaged on the basis of 50-50 per house collection basis.

- COWSHED has been constructed by District administration Pathankot, Which was now monitored and take care by NGO in which more than 500 cows has get sheltered so far.

Glimpse of Skoch Awards.
