

## **Jal Shakti Abhiyan**

With a view to save every drop of water and raise ground water level, a special 'Jal Shakti Abhiyan' launched by the Indian government for 255 districts of the country, including Kapurthala, will be transformed into a people's movement in Kapurthala district. Deputy Commissioner Shri D P S Kharbanda said that under this campaign the targets have been set for raising the ground water level in the district, preventing water misuse, providing potable water as needed and improving the quality of water for which activities are going on at high speed He said that this campaign focuses on water conservation and rainwater harvesting, upgrading of traditional ponds and other ponds, construction of watersheds, developing recharge well systems and increasing area under forest cover.
