

ORDER

Consequent upon detection/reporting of Corona Positive Cases in different parts of the territorial jurisdiction of districts Sirsa from various Viral Research and Diagnostic Laboratories (VRDL) by RT-PCR/Rapid Antigen Testing, Containment Zones and Buffer zones are demarcated from time to time to prevent spread of COVID-19 in the adjoining areas and action plan as provided under the protocol, active search for cases through physical house to house surveillance; testing of all suspect cases as per sampling guidelines; contact tracing; strict enforcement of social distancing; clinical management of all confirmed cases; quarantine; isolation and other public health measures in the Containment Zones and passive search in Buffer Zone is also being carried out by the Health Authorities. "In view of the hardships faced by residents, States having such Containment Zones with prolonged lockdowns, may opt for the following :

- i) The surveillance operations will be scaled down if no laboratory confirmed COVID-19 case is reported from the Containment Zone for at-least 14 days after the last confirmed case has been isolated and all the contacts of the confirmed case have been followed up for 14 days.*
- ii) De-notification of the Containment Zone will be done 14 days after discharge of last confirmed case (instead of 28 days)*
- iii) However, the surveillance for I.L.I./S.A.R.I. and their rigorous testing will continue in the de-notified Containment and Buffer Zones. If further positive cases emerge in the de-notified Containment or Buffer Zone, the area will again be declared as Containment Zone and the containment process shall begin afresh.*
- iv) The City/District/State will be declared free from the disease outbreak only after 28 days have passed since the last confirmed case has tested negative by RT-PCR.*
