

Scaling down of operations

The operations will be scaled down if no secondary laboratory confirmed COVID-19 case is reported from the containment and buffer zones for at –least 4 weeks after the last confirmed test has been isolated and all his contacts have been followed up for 28 days. The containment operation shall be deemed to be over 28 days from the discharge of last confirmed case (following negative tests as per discharge policy) from the designated health facility i.e. when the follow up of hospital contacts will be complete.

The closing of the surveillance for the clusters could be independent of one another provided there is no geographic continuity between clusters. However the surveillance will continue for ILI/SARI.

However, if the containment plan is not able to contain the outbreak and large number of cases start appearing, then a decision will need to be taken by State administration to abandon the containment plan and start on mitigation activities.

17. RAIGAD DISTRICT COVID – 19 STATUS AS ON 04/04/2020 (UPTO 10.00 A.M.)							
Sr. No.	Taluka	Total No. of Persons arrived in Taluka from foreign visit since 01/03/2020 to 03/04/2020	No. of persons completed incubation period of 14 days hence discharged from quarantine norms	No. of Persons in Home Quarantine	No. of persons shifted in Institutional Quarantine cell as on today	No. of persons shifted to isolation cell (If applicable)	Remark
