The available data shows that there are scruples numbers of teachers are posted in various islands but still the Principals of various islands are asking for teachers for existing/up graded schools. On scrutiny it is found that in most cases teaching periods are not allotted to the teachers as per the norms and in some cases teachers taking 10-15 periods per week and this is one of the major reasons for the demand for additional teachers.

Therefore the Principals of the all the islands are directed to ensure that all the regular/ contract teachers should be allotted with minimum period as per the norms and the teacher should be given period in the other school if the minimum numbers of period is not available in the school where the teacher is posted and the status report in this regard should submit the department on monthly basis.
