opposite parties on one to one basis at spot and finally pleads for measurement & demarcation of his land.

So on request of applicant, Sri Ram Govind Singh, the learned survey knowing advocate commissioner was directed to perform the job and accordingly he submitted the report on 20.06.2017. However, applicant's advocate pleaded for approval of the report but op's didn't turn up to court, so their view could not be known to this court. So measurement report was perused and it was found that as per survey total area of land of applicant is 29.419 desimals. So, it seems that applicant is satisfied with the report. So this report is being approved & sketch map, field book etc, will be part of order.
