- Each member of the team will cover at-least 50 Households.
- The team leader should ensure that the team member conduct the House to House Surveillance daily from 08.00AM to 02.00 PM till the completion of Household.
- They will line list the family members and those having symptoms (**Fever, Cough, Cold, Sore throat, Head ache, body ache, Diarrhea & Breathing problem**).
- They should ask for recent history of travel to a COVID-19 infected area (14 Days).
- The supervising officer is responsible to collect the data from the Team Leader of respective Surveillance team and provide the cumulative data to control room on daily basis. They are to ensure that proper screening and questioners regarding sign and symptoms of ARI are being applied by the surveillance worker.

 Medical Superintendent
