

Good Practice

Beriha Filling point Birmaharajpur, A petrol pump of IOCL, had took the initiative to provide fuel only for the emergency vehicle, When someone asked for the fuel, the service boy asked for the pass issued by the government otherwise the authority refused for the fuel, When We asked to the manager he told, *“ It’s our volunteer effort, we suggest to our Malik(owner) for this initiative and he allow us, We don’t want to provide fuel to those vehicle who are moving here and there unnecessarily, we will definitely provide our service to the people who are working in this emergency for providing care to the society.”*

It was such a great initiative by the fuel pump authority, and may be this practice can minimize the use of the vehicle and successfully completed Lockdown.
