5 The data of Covid patients on ICMR website and the department's website be reconciled. There is a possibility that data of private lab testing having been reflected on ICMR website but omitted to be shown on district website. Any mismatch be located, and the whereabouts of that person be specifically obtained. Whether he/she is in home quarantine or been hospitalized elsewhere? Contact tracing of such person is essentially required for curbing further spread of virus.

**Presently there is no mismatch of data between ICMR website and department website.**
