FOREWORD

The District Census Handbook (DCHB) is an important publication of the Census Organization since 1951. It contains both Census and non Census data of urban and rural areas for each District. The Census data provide information on demographic and socio-economic characteristics of population at the lowest administrative unit i.e. of each Village, Town and Ward of the District. The Primary Census Abstract (PCA) part of this publication contains Census data including data on household amenities collected during 1st phase of the Census i.e. House Listing and Housing Census. The non Census data presented in the DCHB is in the form of Village Directory and Town Directory contain information on various infrastructure facilities available in the village and town viz; education, medical, drinking water, communication and transport, post and telegraph, electricity, banking, and other miscellaneous facilities. Later on, the Telegraph Services were closed by the Government of India on 15th July, 2013. The data of DCHB are of considerable importance in the context of planning and development at the grass-root level.

2. In the 1961 Census, DCHB provided a descriptive account of the District, administrative statistics, Census tables and Village and Town Directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to Village and Town Directory, Part-B to Village and Town PCA and Part-C comprised analytical report, administrative statistics, District Census tables and certain analytical tables based on PCA and amenity data in respect of Villages. The 1981 Census DCHB was published in two parts: Part-A contained Village and Town Directory and Part-B the PCA of Village and Town including the SCs and STs PCA up to Tahsil/Town levels. New features along with restructuring of the formats of Village and Town Directory were added. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent Village, the distance in broad ranges from the nearest place having such an amenity, was given.

3. The pattern of 1981 Census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 Census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 Census. One of the important innovations in the 1991 Census was the Community Development Block (CD Block) level presentation of Village Directory and PCA data instead of the traditional Tahsil/Taluk/PS level presentation.

4. As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a Village in addition to prescribed facilities of earlier Censuses. In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

5. The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. These newly added amenities are: Pre-Primary School, Engineering College, Medical College, Management Institute, Polytechnic, Non-formal Training Centre, Special School for Disabled, Community Health Centre, Veterinary Hospital, Mobile Health Clinic, Medical Practitioner with MBBS Degree, Medical Practitioner with no degree, Traditional Practitioner and faith Healer, Medicine Shop, Community Toilet, Rural Sanitary Mart or Sanitary Hardware Outlet in the Village, Community Bio- gas, Sub Post Office, Village Pin Code, Public Call Office, Mobile Phone Coverage, Internet Cafes/ Common Service Centre, Private Courier Facility, Auto/Modified Autos, Taxis and Vans, Tractors, Cycle-pulled Rickshaws, Carts driven by Animals, Village connected to National Highway, State Highway, Major District Road, and Other District Road, Availability of Water Bounded Macadam Roads in Village, ATM, Self-Help Group, Public Distribution System(PDS) Shop, Mandis/Regular Market, Weekly Haat, Agricultural Marketing Society, Nutritional Centers (ICDS), Anganwadi Centre, ASHA (Accredited Social Health Activist), Sports Field, Public Library, Public Reading Room, Assembly Polling station, Birth & Death Registration Office. In the Town Directory, seven Statements containing the details and the data of each Town have been presented viz.: (i) Status and Growth History of Towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 Census as presented in earlier Census.

6. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

7. The Village and Town level amenities data have been collected, compiled and computerized under the supervision of C.S. Sapru, Joint Director of Census Operation, Jammu and Kashmir. The task of Planning, Designing and Co-ordination of this publication was carried out by Dr. Pratibha Kumari, Assistant Registrar General (SS) under the guidance & supervision of Dr. R.C.Sethi, Ex-Addl. RGI and Shri Deepak Rastogi present Addl.RGI. Shri A.P. Singh, Deputy Registrar General, (Map) provided the technical guidance in the preparation of maps. Shri A.K. Arora, Joint Director of Data Processing Division under the overall supervision of Shri M.S.Thapa, Addl. Director (EDP) provided full cooperation in preparation of record structure for digitization and validity checking of Village and Town Directory data and the programme for the generation of Village Directory and Town Directory including various analytical inset tables as well as Primary Census Abstract (PCA). The work of preparation of DCHB, 2011 Census has been monitored in the Social Studies Division. I am thankful to all of them and others who have contributed to bring out this publication in time.

Preface

The compilation and Publication of District Handbooks has been a traditional feature of the Indian Census since 1951. However in Jammu and Kashmir State, no census was conducted in 1951 and 1991 due to the unavoidable conditions prevailing then. The 2011 series of District census handbook contain two parts each. Part-A deals with Town and Village directory and Part B consists of Town and Village-wise Primary Census Abstract etc. The village also follows the same pattern as in 2001. It is hoped that with its present content the Handbook would, more than ever, serve as a useful reference publication, particularly for administrators and data users as have to deal with planning, implementation and evaluation of development programmes including the Minimum Needs Programme at the Grass Root level. The compilation of the Handbook would not have been possible but for the cooperation extended by the Revenue, Education, Medical, Public Health and other local authorities of the District in making data available for which I owe them my grateful thanks.

The Census -2011 was successfully conducted in the State under the able stewardship of Sh. Farooq Ahmed Factoo, IAS, Director Census Operations, J&K, who had to work very hard to see the operations of Census through in the State under the disturbed conditions prevailing in the State. The data presented in this volume has been collected and Tabulated under his supervision and control.

I am highly grateful to C. Chandermoulli, IAS, Additional Secretary to Government of India under whose stewardship the District Census Handbook has been finalized. I am also thankful A.K.Singh DRG (C&T) and Smt Pratibha Kumari ARG (SS) who extended valuable suggestions from time to time.

HISTORY AND SCOPE OF THE DISTRICT CENSUS HANDBOOK

The need of data at the grass root level for the administrative and planning purposes at sub micro level as well as academic studies prompted the innovation of District Census Handbook. District Census Handbook is a unique publication from the Census organization which provides most authentic details of census and non-census information from village and town level to district level. The District Census Handbook was firstly introduced during the 1951 Census. It contains both census and non census data of urban as well as rural areas for each district. The census data contain several demographic and socio-economic characteristics of the lowest administrative unit i.e. of each village and town and ward of the district. The non census data comprise of data on availability of various civic amenities and infrastructural facilities etc. at the town and village level which constitute Village Directory and Town Directory part of the DCHB. The data of DCHB are of considerable importance in the context of planning and development at grass-root level.

In 1961 census DCHB provided a descriptive account of the district, administrative statistics, census tables and village and town directory including Primary Census Abstract. This pattern was changed in 1971 Census and the DCHB was published in three parts: Part-A related to village and town directory, Part-B to village and town PCA and Part-C comprised analytical report, administrative statistics, district census tables and certain analytical tables based on PCA and amenity data in respect of villages. The 1981 census DCHB was published in two parts: Part-A contained village and town directory and Part-B the PCA of village and town including the SCs and STs PCA up to tahsil/town levels. New features along with restructuring of the formats of village and town directory were added into it. In Village Directory, all amenities except electricity were brought together and if any amenity was not available in the referent village, the distance in broad ranges from the nearest place having such an amenity, was given.

The pattern of 1981 census was followed by and large for the DCHB of 1991 Census except the format of PCA. It was restructured. Nine-fold industrial classification of main workers was given against the four-fold industrial classification presented in the 1981 census. In addition, sex wise population in 0-6 age group was included in the PCA for the first time with a view to enable the data users to compile more realistic literacy rate as all children below 7 years of age had been treated as illiterate at the time of 1991 census. One of the important innovations in the 1991 census was the Community Development Block (CD Block) level presentation of village directory and PCA data instead of the traditional tahsil/taluk/PS level presentation.

As regards DCHB of 2001 Census, the scope of Village Directory was improved by including some other amenities like banking, recreational and cultural facilities, newspapers & magazines and 'most important commodity' manufactured in a village in addition to prescribed facilities of earlier censuses.

In Town Directory, the statement on Slums was modified and its coverage was enlarged by including details on all slums instead of 'notified slums'.

The scope and coverage of Village Directory of 2011 DCHB has been widened by including a number of new amenities in addition to those of 2001. In the Town Directory, seven Statements containing the details and the data of each town have been presented viz.; (i) Status and Growth History of towns, (ii) Physical Aspects and Location of Towns, (iii) Civic and other Amenities, (iv) Medical Facilities, (v) Educational, Recreational & Cultural Facilities, (vi) Industry & Banking, and (vii) Civic & other amenities in Slums respectively. CD Block wise data of Village Directory and Village PCA have been presented in DCHB of 2011 census as presented in earlier census. The data of DCHB 2011 Census have been presented in two parts, Part-A contains Village and Town Directory and Part-B contains Village and Town wise Primary Census Abstract. Both the Parts have been published in separate volumes in 2011 Census.

Brief History of the District

Mr. Stein in his book has observed that the history of Kashmir has always been reflected as it were in that of its capital that is Srinagar which has not changed its site for more than 13 centuries. Hiun-Tsiang who visited Srinagar in about 631 AD found it already in position where most of the present city of Srinagar is situated. He described it as situated along the bank of a great river i.e. the Vitasta, now known as Jehlum. The two and a half miles represented by the Chinese measurement of 12 or 13 li, as described by Hiuen-Tsiang; agree accurately with the length of the city within its ancient limits along the right bank of the Vitasta. The estimate of its breadth at somewhat lies less than one mile (4 or 5 li) and it is found equally correct. He has referred to it as the new city to distinguish it from the old capital which was situated at Pandrethan, a village about 3.2 kilometers to the south-east of Srinagar. According to Kalhana, Pandrethan which was then known as Puranadhisthana (meaning the old capital of Srinagar was founded by Ashoka, the Great at the south foot of a mountain spur which rises with bold slopes to a height of some 3000 feet above the village. According to him though Puranadhisthana had sunk to non importance already in Hindu times, extensive remains of ancient buildings can still be traced on the terraced slopes rising immediately to the north and north-east of Pandrethan. Those extending close to the gap, known as Aitgaj, between the Takht-I-Sulaiman and the hills east to it. The advantages of Pandrethan as the site for a great city can not be compared with those offered by the position of Srinagar. Yet the close vicinity of the Vitasta (Jehlum) coupled with the security from floods which the near hill slopes afford, must have been appreciated in an early period when probably the river rains flats of the valley were less drained. The name Srinagar which means the city of Sri or Lakshmi appears to have been assigned to the capital to commemorate the Buddhist Monastery built by Ashoka between Pandrethan and the nearby steep hill side at a distance of 2 miles from Pandrethan.

It is, however, said that the new city was founded by King Pravarasena-II sometimes about the middle of the 6th century. Kalhana has referred to it as Pravarapura, an abridged name for Pravarapura. Since the city was practically contiguous to the older Srinagar and existed for centuries side by side, it could not retain its official name for long and was thus known by the familiar name i.e. Srinagar, exactly in the same way as the several new cities founded by successive kings in the vicinity of Delhi continued to be known simply by the name of Delhi, though each of them was originally intended to bear the distinctive name of its founder. Kalhana has cited an interesting legend which led to the demarcation of the site of the new capital. It is said that when the king returned from his victorious expeditions, he decided to build a new capital which was to bear his name. He set out at night from his palace in Puranadhisthana to ascertain in a supernatural way the proper site and the auspicious time for laying the foundation of the new city. He reached a stream and found a demon of terrible form on the other bank. The demon promised him the fulfillment of his desire, subject to the condition that the king crossed over to his side by the embankment which the demon offered to provide for the

purpose. The king agreed and the demon stretched his knees causing thereby the water of the stream to part on either side of the embankment. The king drew out his dagger and cut with it steps into the flesh of the demon's leg and crossed over to the other side. The demon then indicated to him the auspicious time and advised him to build the capital at the place where he would find the measuring line laid down on the following morning. Next day the king discovered the line at the village of Saritaka where goddess Sarika and the demon Atta resided. Here he is believed to have founded the city and built the first shrine known as Siva Pravaresvara. It is clear that the stream referred to in the legend is the canal known as Tsunth-kul, which flows in the Dal Lake and then into Vitasta (Jehlum).

Village Saritaka has since been completely wiped out and is no longer traceable. Its position is however, still identifiable due to its association with goddess Sarika, a form of Durga which is being worshipped since times on the hill now known as Hariparbat.

The city of Srinagar was confined in the beginning to the right bank of river Jehlum but later it was extended to the left bank also, so as to include the portion enclosed by the canal known as Kut-kul which takes off from the river below Shergari and joins it again near the 7th bridge. The exceptional position of Srinagar can be safely attributed to the great natural advantages of its site. Occupying a place close to the true center of the valley, Srinagar enjoys facilities of communication, which no other site could offer. Before the advent of road transport, the river along which the city is built, provided at all seasons the most convenient route for trade and traffic both up and down the valley i.e. from Khanabal in Anantnag town to Khadanyar in Baramula district. The lakes viz. Dal and Anchar, which flank Srinagar, furnished an abundant supply of products, which materially contribute towards the livelihood of a large city population.

The valley of Kashmir is distinctly marked by lakes, streams, luscious fruits, magnificent forests and mighty mountains; the features which contribute to the making of valley a paradise on earth. Situated in the lap of the Himalayas the green fertile valley of Kashmir is guarded by a long chain of mountains with an average height of about 1828.8 metres above the sea level. The general aspect of the valley is that of a basin, surrounded on every side, by a range of lofty mountains and with it is extensive tract alluvial soil water by the Jehlum and its various tributaries which flow down from the mountains and are fed by the heavy snow and rain falling in the elevated regions. The valley resembles a gem set in the casket of the everlasting Himalayas. The physiography of Kashmir can be studied with three major physical divisions plain, plateau and mountains.

Hokersar is a wetland situated near Srinagar. Thousands of migratory birds come to Hokersar from Siberia and other regions in the winter season. Migratory birds from Siberia and Central Asia use wetlands in Kashmir as their transitory camp between September and October and again around spring. These wetlands play a vital role in sustaining a large population of wintering, staging and breeding birds.

Administrative Set up

Srinagar district is situated at an altitude of 1730 meters above sea level and lies between 33^o-14' and 38^o-25' North latitude and 74^o-38' East Longitude, in the center of valley of Kashmir. It possesses almost central position in Kashmir region. Besides being summer capital of Jammu and Kashmir State it has great antiquity and chequered history which dates back to 250 BC. Srinagar was also known as Hemavar, Praverpora and Praversenpur. It has remained the center of power, with different kings shifting their capital from one place to another.

Srinagar is named after its headquarters town which is also the summer capital of the State Government. The district occupies the central sector of Kashmir valley and its boundaries extend from District Baramullah in east , district Ganderbal in north to Pulwama in south west and Anantnag in the north east. It is intersected by the National Highways connecting Pathankot with Jammu, Srinagar and Ladakh. The city is located on both sides of the Jhelum river, which is called Vyath in Kashmir. The river passes through the city and meanders through the valley, moving onwards and deepening in the Dal Lake The city is famous for its nine old bridges, connecting the two parts of the city.

It consist of 1 CD Block.

S.NO	NAME OF THE CD BLOCK
1	SRINAGAR

District Highlights 2011 Census

Srinagar is the summer capital of Jammu and Kashmir. It is a hub of all sorts of activities particularly relating to and affecting Kashmir valley. It is an ancient historic city, a holiday resort, a venue for conference, seminars, workshops and similar other gatherings of national and sub-national importance. The district consists of two tehsil and 11 villages .The number of inhabited as well as uninhabited villages in each tehsil is given as under:-

S.No.	Tehsil	Number of villages		
		Total	Inhabited	Uninhabited
1	Srinagar North	8	8	0
2	Srinagar South	3	3	0

POPULATION OF THE DISTRICT

Population	Total	Persons	1236829
		Males	651124
		Females	585705
	Rural	Persons	17313
		Males	8916
		Females	8397
	Urban	Persons	1219516
		Males	642208
		Females	577308

The total population of the district as per 2011 Census is 123682912 persons. It consists of 651124 or 6.5 lakh males and 585705 or 5.8 lakh females. The rural sector of the district is inhabited by 17313 persons comprising of 8916 males and 8397 females spread over the 11 inhabited villages. The urban sector has a population of 1219516 persons which consists of 642208 males and 577308 females.

notes:-*

- a) The area includes 78,114 sq.Kms. under illegal occupation of Pakistan and 5,180 sq.Kms. illegally handed over by Pakistan to China and 37,555 sq.Kms under illegal occupation of China in Leh (Ladakh)district.
- b) The population figures exclude population of areas under unlawful occupation of Pakistan and China where census could not be taken.
- c) Population density of State is calculated on the net area 101,387 sq. km excluding the area under illegal occupation by Pakistan and China.
- d) The density of the district is calculated on the revenue area.

Section - I

Primary Census Abstract (PCA)

Brief Note on Primary Census Abstract

Introduction:

The Indian Census has the reputation of being one of the best in the world. The first Census in India was conducted in the year 1872. This was conducted at different points of time in different parts of the country. In 1881 a Census was taken for the entire country simultaneously. Since then, Census has been conducted every ten years, without a break. Thus, the Census of India 2011 was the fifteenth in this unbroken series since 1872, the seventh after independence and the second census of the third millennium and twenty first century. The census has been uninterruptedly continued despite of several adversities like wars, epidemics, natural calamities, political unrest, etc.

The Census of India is conducted under the provisions of the Census Act 1948 and the Census Rules, 1990. In Censuses until 1931, a synchronous de-facto method was adopted wherein the Census was conducted throughout the country on a single night. This being a very costly affair and involved the deployment of very large force at one point of time was given up in 1941. Since then the same methodology has been followed in all the Censuses. It is a gigantic operation and considered to be the single largest, complex, peace time administrative exercise in the world.

The Census Operation in India is carried out in two distinct but inter connected phases - the House listing and Housing Census followed by the Population Enumeration. During the first phase of Census 2011 i.e., House listing and Housing Census, the buildings, census houses and households were identified and systematically listed in the House Listing and Housing Census Schedule during the period April to September, 2010 in different States/Union Territories. Apart from listing of houses, some useful data on the amenities available to the households was also collected for assessing condition of human settlements, housing deficits etc.

Censuses prior to Census 2001 had the system of collecting the information through Individual Slip which was a key schedule for every individual. The information collected through slip was then compiled for a household. Some information was also collected in addition to this for the household. During 2001 Census a comprehensive Household Schedule was adopted replacing the individual slip concept. In 2011 Census also similar household schedule was used for canvassing. The scope of demographic, socio-economic parameters has been widened in every census.

2. Population Enumeration - Census 2011:

The field work of the second phase i.e. Population Enumeration was carried out during February-March, 2011. One of the essential features of Population Enumeration in the second phase was that each person was enumerated and her/his individual particulars were collected at a well-defined point of time.

The Census moment and the reference date for the Census of India 2011 was 00:00 hours of 1st March, 2011. The enumeration was conducted from 9th February to 28th February, 2011 along with a revisional round from 1st March,

2011 to 5th March, 2011 synchronously all over the country except for few specific areas of the Jammu & Kashmir, Himachal Pradesh and Uttarakhand states that remain snowbound in February. In these locations the population enumeration was done from 11th September, 2010 to 30th September, 2010 along with a revisional round from 1st October, 2010 to 5th October, 2010. The reference date for the census in snow bound non-synchronous areas of these states was 00.00 hours of the first day of October, 2010. In addition to the coverage during House listing & Housing Census, the enumeration of the Houseless population was carried out on the night of 28th February, 2011, as has been the usual practice. For the purpose of Census, certain areas where the access of the civilian enumerators was not permissible due to security reasons termed as 'Special Charges' such as the Defence and strictly Military/Para-Military areas, including operational areas were also covered. Such areas were not covered during the House listing & Housing Census. In addition to the defence/para-military areas, Special Charges also included certain factory areas, certain colonies, sensitive areas, scientific establishments, etc. These also formed Special Charges as these were not accessible by the usual census enumerator.

3. Quality Assurance:

A Task Force for Quality Assurance (TFQA) functioned under the chairmanship of the RG & CCI. Experienced officers of the different divisions of the organization i.e. Heads and senior officers of the Census Division, Data Processing Division, Map Division, Demography Division and Social Studies Division comprised the TFQA. The Directors of Census Operations were co-opted as members whenever the TFQA discussed the data for their States/Union territories. The main objective of constituting the TFQA was to subject the data to stringent validation checks and ensure its quality before release as it was expedient to be satisfied itself about the quality of data before putting the same in public domain.

The Directors and their senior officers were involved at all levels with respect to the quality and the coverage of their states/Uts. The TFQA intensively scrutinized coverage and content parameters including edit and imputation logic. The most important aspect of the data quality was to ensure complete coverage of all geographical areas especially for the population enumeration phase where the data is disseminated right up to the village level in the rural areas and the ward level in the urban areas. Thus ensuring the complete coverage and correct geographical linkage of each enumeration block was one of the major planks of the quality control, especially for small area population statistics. The content was scrutinized mainly through the process of internal consistency, comparison with similar data in the past and also through validation with likewise data if available, from external sources. Quite often the local knowledge and perception was looked at to understand both the existing and the new emerging trends of population distribution and characteristics. A very comprehensive check and edit mechanism was put in place to objectively examine the preliminary Census 2011 Population Enumeration results and finally clear them for use. The population data was cleared only after the full possible satisfaction of the TFQA.

The entire work relating to the data validation and scrutiny was completed by all the States/Union territories under the overall supervision and monitoring of the Census Division of the Office of the Registrar General, India with active cooperation and support of the Social Studies Division, Data Processing Division, Data Dissemination Division and Map Division.

4. Primary Census Abstract:

The Primary Census Abstract which is important publication of 2011 Census gives basic information on Area, Total Number of Households, Total Population, Scheduled Castes, Scheduled Tribes Population, Population in the age group 0-6, Literates, Main Workers and Marginal Workers classified by the four broad industrial categories, namely, (i) Cultivators, (ii) Agricultural Labourers, (iii) Household Industry Workers, and (iv) Other Workers and also Non-Workers. The characteristics of the Total Population include Scheduled Castes, Scheduled Tribes, Institutional and Houseless Population and are presented by sex and rural-urban residence.

In 1981 census main workers were presented into four categories. As regards 1991 Census, the nine-fold industrial classification of main workers has been given in the Primary Census Abstract. One of the important features of the Primary Census Abstract of 1991 Census was the presentation of population of the age group 0-6 which is continued in 2001 and 2011 Census. All the children of age 6 years or less have been treated as illiterate even if the child is going to a school and may have picked up reading and writing. This will help the data users in better analysis and understanding of the literacy data as the literacy rate is calculated with 7 years and above population and it is referred as effective literacy rate. In 2001 and 2011 census four categories of main workers have been given in the Primary Census Abstract.

5. Level of Presentation of PCA data in District Census Handbooks:

The format of Primary Census Abstract (PCA) adopted in the DCHB of 2001 Census has been continued for 2011 Census as the data on four categories of works have been presented similar to 2001 census. The Primary Census Abstract data in different PCAs are presented at different levels. The level of presentation of Primary Census Abstracts in DCHB is as under:

1. District Primary Census Abstract -District/C.D. Block/Town.
2. Primary Census Abstract for Scheduled Castes- District/C.D. Block/Town.
3. Primary Census Abstract for Scheduled Tribes -District/C.D. Block/Town.
4. Village Primary Census Abstract -C.D. Block/Village wise.
5. Urban Primary Census Abstract- Town/Ward level.

-4-

The PCA Data for villages was presented C.D. Block wise for the first time in 1991 Census. This practice is continued in 2001 and 2011 Census. The term 'Total Population' includes the Scheduled Castes, the Scheduled Tribes, the Institutional and the Houseless populations. An appendix to District

Primary Census Abstract has also been furnished showing urban enumeration block-wise particulars on Total Population, the Scheduled Castes Population and the Scheduled Tribes Population for each town.

6. Area Figures:

The area figures supplied by local revenue authorities of the district in respect of tahsils, Police Stations and by the local bodies in respect of towns are given in square kilometers. The area figures of the villages supplied by the Tahsildars in acres have been converted and shown in hectares. The area figures of the C.D. Block are the total of the village areas coming under each C.D. Block. The area figures for the district are the same as adopted by the Surveyor General of India to maintain uniformity at the national level.
