7(b) VOLUNTARY ORGANISATION

The participation of voluntary organisations is the vital in case of natural disasters. They are generally expected to render all possible assistance to the flood affected victims and to extent all cooperation to the District Administration to tide over the crisis.

8. Assessment of Damages

- The Tahsildars are directed to assess the damages caused to human life, cattle and dwelling places due to rain and floods, and to take immediate steps to distribute the relief to the victims, and affected persons without any loss of time.
- The Joint Director of Agriculture and Deputy Director of Horticulture have been directed to assess the crop damages if any due to flood.
- The Joint Director of Health Services has been directed to keep ready all the Medical Teams with adequate medicines to meet any outbreak of contagious deceases due to rain and flood.

9. COMMUNITY AWARENESS AND INVOLVEMENT

9(a) Steps to be taken by public when a warning for Cyclone threatening the area is received

- Keep your T.V., Radio on and listen to latest weather warnings and advisories from the Doordharsan
- All India Radio station. Pass on the information to others as quickly as possible.
- Avoid being misled by rumours. Pass on only the official information you have got from the T.V. Radio to others.
- Move away from low-lying beaches or other location, which may be swept by high tides or storm waves. Leave sufficiently early before your way to high ground gets flooded. Do not delay and run the risk of being marooned.
- If your house is out of danger from high tides and flooding from the river and it is well built it is then probably the best place to weather the storm. However please act promptly if asked to evacuate.
- Be alert for high water in areas where streams of rivers may flood due to heavy rains.
- Bolt up glass windows or put storm shutters in place. Use good wooden blanks securely fastened provide strong suitable support for outside doors.
- If you do not have wooden boards handy, paste paper strips on glasses to prevent splinters flying in to the house.
- Get extra food, especially items which can be eaten without cooking or with very little preparation. Store extra drinking water in suitably covered vessels. Make provision for children and adults requiring special diets.
- If you are in one of the evacuation areas, move your valuable articles to upper floors to minimise flood damages.
- Have hurricane lantern, flash lights and other emergency lights in working condition and keep them ready.

- Check on everything that might blow away or be born loose. Kerosene tins, canes, agricultural implements, garden tools, road signs and other objects become weapons of destruction in strong winds. Remove them and store them in a covered room.
- Be sure that a window or door can be opened on the left side of the house (i.e) the side opposite the one facing the wind.
- Remove cattle to safe place as faraway as possible.
- If the centre of eye of the storm passes directly over your place, there will be wind and rain lasting for half an hour or more. During this period stay in a safe place. Make emergency repairs during the pre monsoon period, if necessary, but remember that strong winds will return suddenly from the opposite direction, frequently with even greater velocity.
- Be calm your cability to meet any emergency which will inspire and help others.

9(b) DO'S AND DONT'S OF CYCLONE AND FLOOD

- In each block certain areas are prone for cyclone and flood affected and damages.
- Such high risk areas and low risk areas should be indentified and classified as under:-
 - a) High risk areas (b) Low risk (c) No risk areas.
- Draw the programme fixing responsibiliyt to each of the teams posted in high risk and low risk areas.
- Identify the requirements of Drugs, Disinfectants and Dressing to each item.
- Indent for additional requirements of needed for flood relief work.
- Make Panchayat Union Commissioners to provide requirements of drug and disinfectants to the flood affected areas.
- Keep vehicles roadworthy and fuel filled / tank full.

- Formulate Special teams to look after chlorination of drinking water and to check the quality of water available in the areas for public use.
- Water for flood/cyclone warning and forecasted and record daily.
- Keep touch with nearest Revenue and Block officials for getting information and damages and calamities if any occurred.
- Keep the list of affected persons moved to safer places and temporary shelters organized by District Administration.
- Rush teams to Refugee camps of the affected persons to provide drugs and dressings.
- Rush teams to refugee camps of the affected persons to provide drugs and send special teams for looking after the sanitation of the temporary camps.
- Check food supply quality chlorinate drinking water sources providing sanitary facility. Have antily measure scrupulously take care off.
- Take care a disposal of dead bodies are case set. Without causing nuisance and public health hazards.
- Take care to look after controlling Epidimic of Malaria Water Borne diseases and food poisoning in the early stages of flood and cyclone.
- Transport cases heeding hospital admissions, after providing first aid in the sport.
- Supervise relief measures and guide staff on the spot.
- Kept information monitoring system on day to day basis by sending report in system by courier services.
- Document all activities of posiible with photography wherever necessary adequate data and statistics to under stand and magnitude of the problem.

9(c) CHECK LIST ON DONT'S

- Do not allow field public health staff to proceed on leave of any to during flood/cyclone monsoon periods, except on extra ordinary situations making alernative arrangements.
- Do not allow them coming to work place by sdtaying outside the posted headquarter in the villages. Insist them to stay at villages to which they posted.
- Do not get panky even if your village is cyclone hit stand up to the community. Running away the challenge is betrayal to the community.
